Dear Class of 2011:

There is nothing more exciting about the high school experience than the anticipation of graduation and closing the book on an exciting chapter of your young lives. You have reached a milestone that you should be proud of and cherish. Your excitement, in part, should be due to the fact that this event represents the end of the beginning. The road ahead is far longer than the journey from which you have come. High school graduation is a springboard for your plunge into adulthood, where college and career experiences will allow you to use the world as your classroom, leaving behind the protective confines of FHS. But, your preparation with us should not be underestimated. Our talented high school staff has embraced our mission of being a college readiness high school and has done its best to provide you with a quality education, personal confidence, and a high level of personal responsibility, so that you can compete admirably using a wealth of 21st century skills.

Along the way, do not lose sight of what is really important in life, and what ultimately determines one's true level of success. There will always be someone richer, bigger, more determined, luckier, and gifted.....so instead of going through life constantly comparing yourself to others, try setting your own high personal standards and work towards an internal peace, having met your own expectations. Always treat others the way you want to be treated, use "please" and "thank you" a lot, give more than you get, smile often, make someone happy, do what is right especially when no one is watching, and love so you can be loved back. Being considered a good person will bring you far more joy in life than any degree or job position. Trust in the fact that the quality of your character will open up plenty of opportunities and make you a winner.

So, Class of 2011.....go spread your wings and fly away. Begin building your own life's legacy that someday will make you, your children and your grandchildren proud. Go knowing that collectively, the legacy you left us at FHS is a memorable one, and we thank you for that.....God bless the Class of 2011. Congratulations and Good Luck!!!!

I guess it's about time to start working on this. It's pretty funny; no matter how important the assignment given is, it is always put aside until the final day. A paradigm - and an awful one at that. Many sleepless nights from this; always pressing for more time as the exhaustion strikes. Procrastinators til the end - and with each assignment always finished just on time, there was never really any problem. But time is not without its prized intrinsic value; there's no pushing that back. A lot of you I will probably never see again and I don't know how to feel about that. And so I inscribe this to Eilish Lancey and my family; I love you.

In Memory of Shontae Parks

Oh boy did the years go by so fast
I thought they were going to last

It seems like one day I woke up
And I was in the next grade

And I thought oh geese
How fast the years did fade

For grade one to two
It ended as fast as the tie of a shoe

Grade three to four
It ended as fast as opening a door

Grades five and six
It ended as fast as the clock ticks

Grade seven went by as fast as a fly

Grade eight is still moving along
At the end of the year I am going to sing a song

Oh boy did the years go by so fast
I thought they were going to last!

Principal Richard Masciarelli

It is with great pleasure that I represent the fabulous Class of 2011 upon thanking you for all you have done. There is no way to describe in words all the ways in which you have made Fitchburg High School a more enjoyable school to attend. Mr. Masciarelli, you have created a learning environment in which students feel comfortable and a place where students are encouraged to succeed. You have instilled in the student body a sense of community that many school districts wish their students embodied.

During a school assembly in March 2011, you informed each and every student of your plan for our high school. You spoke highly of Fitchburg and its school system, though many others do not. Your goal in coming here was to put Fitchburg back on the map, and for Fitchburg High School to be home to a group of respectable and talented young adults. Making Fitchburg students known for their greatness has always been your vision.

I can proudly inform you Mr. Masciarelli, that Fitchburg has indeed been put back on the map. This is not due solely to the student body and faculty however. Instead, it is the result of a brilliant administrator's dream and his determination to show the world just how wonderful Fitchburg is. I cannot explain how grateful I am for the hard work you put into making Fitchburg High School an excellent school at which to receive an education. I am certain that I speak not only for myself, but also for every single Fitchburg High graduate, both past and still to come.

The Class of 2011 wishes you the best of luck in your retirement. You have done much to help improve the education system and everyone wishes you would stay. I guess we must understand however, that even superheroes need a rest, at times! Mr. Masciarelli, Fitchburg High's own superman, you will be missed dearly.

It is with great joy and deep sadness that the community of Fitchburg says goodbye. A sadness due to losing a fabulous mentor, administrator, colleague, and most importantly a loving friend. While saddened by our loss, the community of Fitchburg is also overjoyed to have had the wonderful privilege of having you as the Principal of Fitchburg High School. You have shaped and molded not only the curriculum, but also the amazing faculty and students who walk the hallways. You have improved and touched the lives of so many of us.

Mr. Masciarelli, you are truly an amazing individual and will be missed by the community for decades to come. I cannot thank you enough on behalf of the faculty, Class of 2011, and entire student body. We were absolutely blessed to have had you in our lives. Thank you for all you have done. May retirement treat you as kindly as you have treated every single one of us.

Sincerely

Macy Woodard
